Dear Sirs

Re – APP/ W0340/W/20/326546O

Newbury Rugby Club NRFC are fully aware of the development proposals at Stanford Park since the site was allocated in the local plan. A small piece of land (known as the triangle land) was sold previously to the owners of Stanford Park, however this land will be transferred back to Newbury RFC as it is now not required to bring forward development. Newbury RFC is supportive of the development which will deliver significant developments to both the town of Newbury and to the Rugby club.

We have been working with Bloor Homes over recent years in order to enable the development to progress. Please do not hesitate to contact the writer if you require any further information.

Yours faithfully

David Jones
President
