

Addendum

Table 3 Landscape Character Assessment

References:

Paragraph 5.10, Section 5 of Cooper Evidence (CD 10.4), and submitted ES (CD 20.18)

Issue:

Table 3 provided a comparison of the two landscape Character Assessments, the second column being the 1993 LCA, and the third column the current 2019 LCA. It was correctly pointed out in examination that there was no 1993 assessment. This was to be checked and the result provided to the Inspector.

Comment:

The first row under 'Extent' states 'See to LVIA Fig 7.3', this being the Landscape Character and Designations Plan (CD 21.10). The legend of this plan refers to the **Berkshire Landscape Character Assessment**. Note 5 provides a status of Final Report and a date of **October 2003**.

Addendum:

The text preceding Table 3 and the second column of that table should refer to the **Berkshire Landscape Character Assessment 2003**. The references to LCA 1993 and 2013 are typographical errors and should be deleted.

The text supporting Table 3, the contents of the table, and the conclusions do not change. The content of Julian Cooper's evidence remains unchanged.
