## WBC Planning Application 201002

Apologies for the delay in responding.

With regard to Planning Application 201002. ONR have been unable to complete consultation with the relevant emergency planners within the consultation timescale and I would therefore make the following conditional representation in order to ensure that we do not contribute to any delay in the planning process.

Due to the scale and location of the proposed development ONR advise against this application unless the emergency planners at Wokingham which is responsible for the preparation of the Burghfield off-site emergency plan required by the Radiation Emergency Preparedness and Public Information Regulations (REPPIR) 2019 are consulted with regard to this application and that they subsequently provide written confirmation that, in their opinion, the proposed development can be accommodated within their existing off-site emergency planning arrangements (or an amended version of it).

Should you have any queries regarding this advice, please contact ONR via email to <a href="https://one.com/ONR-Land.Use-Planning@onr.gov.uk">ONR-Land.Use-Planning@onr.gov.uk</a>.

I would be grateful if you would notify ONR of the outcome of the determination of this application.

Kind regards

Vicki Enston
Regulatory Officer
Land Use Planning
Emergency Preparedness & Response

## E: ONR-Land.Use-Planning@onr.gov.uk

The Office for Nuclear Regulation's mission is to provide efficient and effective regulation of the nuclear industry, holding it to account on behalf of the public.
