I would like to object to the planned development on the north east area of Thatcham on the grounds that the plans are unsound and will have a negative impact on the area

Particular areas that are unsound are:

Increased traffic in the area without improved roads and junctions

No provision for additional healthcare and schooling.

It will have a negative effect on the environment especially Bucklebury common which is an area of outstanding natural beauty and the increased footfall into the common will do a great deal of damage to the vegetation and wildlife.

I have lived in this area all of my life and do not to see it ruining will another massive housing estate destroying more greenfield sites.

King regards

Kevin Dunks
