I am objecting to the Thatcham NE development plan because it is unsound. I am a [REDACTED] which is already full so I do not think that children should go to my school while a new school is built. There is no information about where this school will be or whether there will be enough pupils for it to exist.

I am driven to school and the traffic is bad in our village and in Thatcham. This will get much worse once the houses are built particularly if there is a an exit at Hart's Hill.

It's been great to go to school near my home and have school friends that live near me but the development may mean that in the future other children in my village will have to go to The Downs if our catchment is changed.

I often walk on the fields that will built on on and on Bucklebury Common. The plan will not conserve the environment and the wildlife that lives on it. because houses will be built on it on lots more people will be walking on the Common.
