for the attention of the Planning Department

I am writing to object to the large scale residential development in North East Thatcham extending to Bucklebury and Midgham

The amount of damage to wild life habitat would be considerable, at a time when numerous surveys have highlighted the drastic reduction in numbers of birds, butterflies and invertebrates

We all benefit from exposure to wild life and open spaces. This large residential development will result in opposite situations with reduction in quality of life for large portions of the local community

Please re consider these developments

Yours faithfully

Mr G N Shillam
