I am writing to object to the above plans as I feel that the plan is unsound.

Negative implications:

Loss of countryside

Pressure on infra structure (the roads are already busy, the state of the roads with pot holes are already causing problems, just think of the issues with all these extra cars/lorries)

Effects on local services eg schools, doctors, dentists (schools currently have waiting lists - doctors currently around 8 weeks to get an appointment, dentists - even longer to get appointments)

Facilities - we usually have problems with water and that is with the numbers living in the area at the moment, putting all these extra houses will make huge problems and extra pressures on resources
